

## **Access for All ReVision Committee**

The Access for All ReVision Committee is making progress in providing a plan that accomplishes our goals put forth at the annual meeting. We have a plan, which we are calling Phase 1, to bring before the Leadership Council that we feel addresses the issues of a safer Early Learning Center, and a more efficient use of space that allows our ministries and community outreach to grow. This plan mostly involves physical movement of the ELC and church offices, along with cosmetic/functional improvements in these areas.

The committee is now preparing to discuss Phases 2 and 3, which will address “access for all” within our church building. Phase 2 will be smaller changes/improvements that would occur over the next 2 years and will most likely require congregational support to approve making these financial investments. Phase 3 includes the largest improvements that would most likely require a capital campaign to raise the funds to implement.

Look for updates here in the Spire!

Scott Oglesby, Committee Chair
